

# CareOregon Brings Adventure to Preschoolers

Having a volunteer to hold every hand and engage each child in new adventures makes field trips possible for children at our Family Relief Nursery. And having businesses like CareOregon, who are committed to community service, enables VOA to build relationships with people in the community who work full-time, traditional hours but want to support our mission and the people we serve.

A huge thank you to CareOregon, the employees who hosted the Firehouse and Belmont Library field trips this month, and to the flexible, welcoming team at FRN who made this all possible!
