

# Mentor Graphics Volunteer Project

June 21<sup>st</sup>, 2016

VOA Oregon has been so fortunate to have the support of Mentor Graphics for several years now. With their generous donations, Mentor Graphics volunteers have helped build and beautify gardens and playgrounds at Lambert House and now the Family Relief Nursery TWICE! This June, approximately 50 company volunteers showed up at the Family Relief Nursery to enhance the garden and playgrounds they helped five years ago. It was a unique opportunity for them to see their project grow and come full circle.

This year, Mentor Graphics helped build sheds, shelving units, and picnic tables, and planted tons of plants, laid soil and bark chips, cleaned our playground equipment, and more. Without their financial contributions and volunteer time, we would not have been able to improve the outdoor areas in such a wonderful way. The space is transformed into a peaceful, fun, and clean yard for kids to play and garden, and for staff to relax at picnic tables and store program supplies in secure sheds. We are so grateful for Mentor Graphics' continued support of VOA Oregon!
