

Spring Cleaning with Portland InternetWorks

Portland InternetWorks shared a Saturday at the Women's Residential Center (WRC) for the first group project hosted at the WRC in over a year. With volunteer help, we weeded, mulched, pruned and even uprooted a couple small trees. The transformation is incredible! And the women were humbled to have a fun group of volunteers giving their time and energy. The group had such a fun time, they're planning to come back soon!
